1. Overview

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

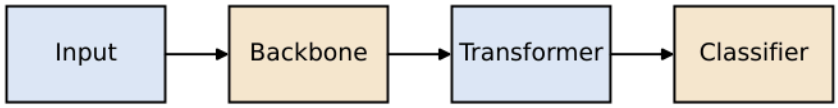

Figure 1: Overview of the proposed architecture.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

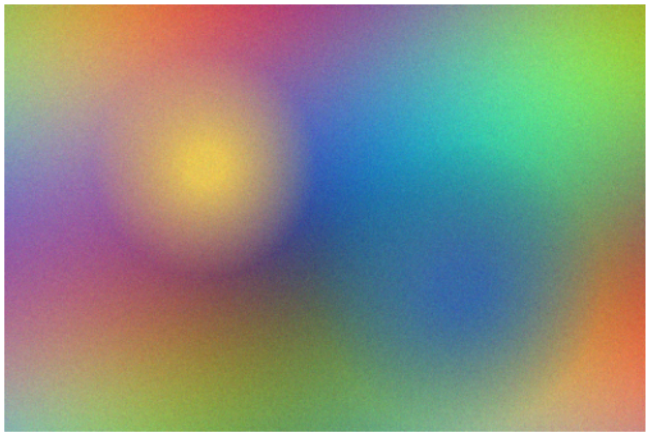

Fig. 2. Qualitative example produced by the method.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

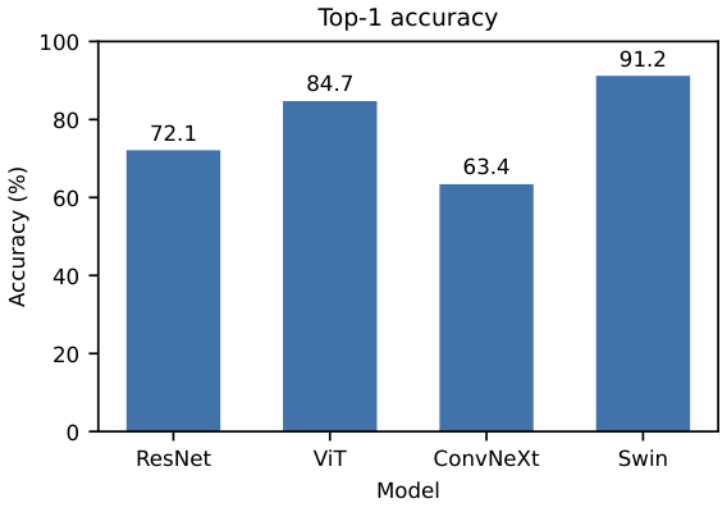

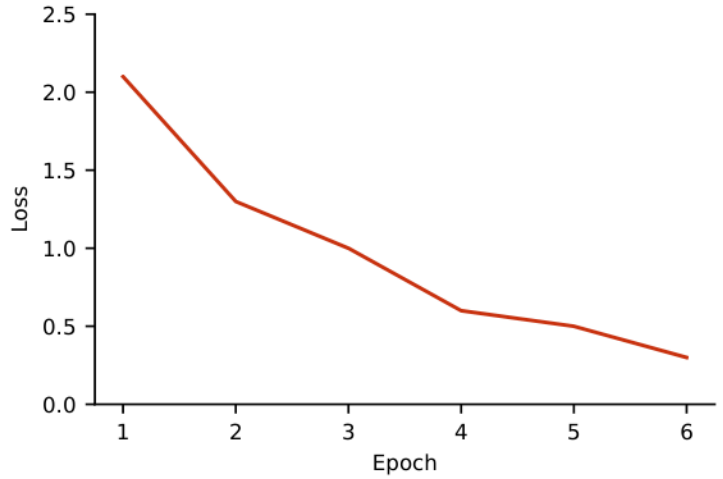

Figure 3: Accuracy of four models on the benchmark.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

Figure 4: Training loss over six epochs.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

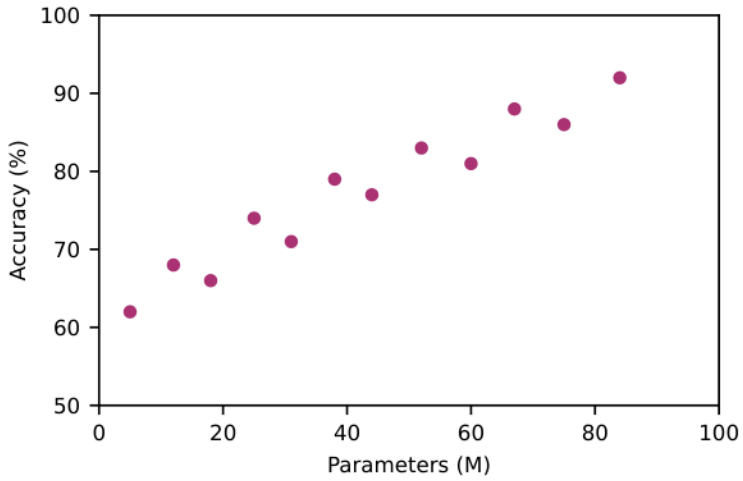

Figure 5: Accuracy against model size.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

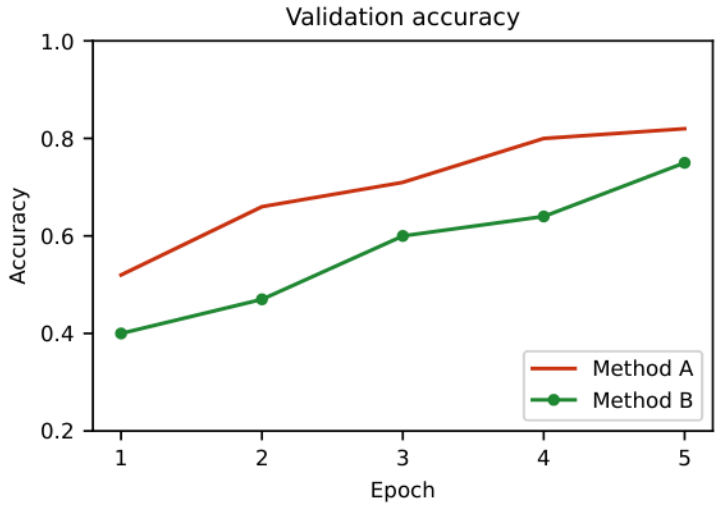

Figure 6: Validation accuracy of two methods.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

Running text of a narrow column. It fills the lines above and below the figure of this column and has no other purpose.

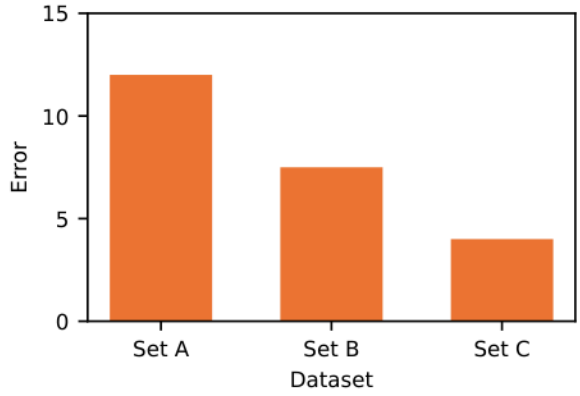

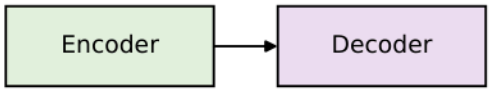

Figure 7: Error on three datasets.

Running text of a narrow column. It fills the lines above and below the figure of this column and has no other purpose.

Running text of a narrow column. It fills the lines above and below the figure of this column and has no other purpose.

Running text of a narrow column. It fills the lines above and below the figure of this column and has no other purpose.

Fig. 8(a) Two-stage variant.

Running text of a narrow column. It fills the lines above and below the figure of this column and has no other purpose.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.

Figure 9: A line of caption text above the drawing.

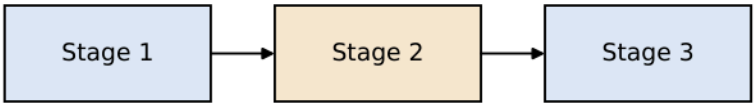

Figure 10: A line of caption text below the drawing.

This paragraph is ordinary running text. It stands before and after the figures of the page so that every figure is surrounded by body text, as it would be in a paper.
